## Product Liability Claims

### ARE YOU AT RISK?

We expect the products we buy and medicines we use to be safe, but that's not always the case. If you've been injured by a defective product or drug, we can help protect your rights.

Review the A-to-Z list of Consumer Alerts on the back.

Since 1985, Terry Bryant has been representing injured people to help them win the compensation they deserve. Thank you for rating us best in class. ♦

**4.8/5 STAR RATING**  
(on 210 reviews as of Sept. 2017)

*"With my experience from Terry Bryant, I would definitely recommend them to family and friends, because they took care of me from the moment I walked in the office until the very end when the case was closed."*

 ~ Misty V., Actual Client

*"I felt more like family than a client because they worked so closely with us. Terry and his staff worked with me and were in communication with me constantly, keeping me abreast. I could call at any time, I could visit at any time, and their office and phone was always open to me and my family."*

 ~ Ray M., Actual Client

## Helping Injury Victims Since 1985

Welcome to Texas Injury Insider with the Houston personal injury attorneys at Terry Bryant Accident & Injury Law. We've worked with thousands of families and individuals, like you, to make sure accident victims get fair compensation after an injury caused by someone else's negligence.

It's important for us to stay connected with friends of the firm before, during, and after a case. Texas Injury Insider provides the latest firm updates and news surrounding personal injury.

For our first issue, we want to take a moment to re-introduce ourselves and the work we do. Our team of attorneys has decades of experience handling virtually all types of injury claims.

If you or a loved one are ever injured in an accident, Terry Bryant is on your side. Thank you for letting us protect your rights.

## PRACTICE AREAS

**Vehicle Accident Claims** – Every two and a half minutes, someone is injured in a Texas vehicle crash. Most of these crashes are caused by driver error.

**On-The-Job Injuries** – All workers are guaranteed the right to a safe workplace. When a worker suffers serious injuries on the job, they need an experienced attorney to make sure they are treated fairly by an employer or insurance company.

**Medical Malpractice** – Doctors are supposed to treat their patients for injuries and illnesses. Unfortunately, medical error causes a significant number of injuries, illnesses, and deaths every year in the U.S.

**Consumer Product Injuries** – Consumers place a great deal of trust in manufacturers to provide them with safe products. However, these manufacturers often fall short in the quality and safety of products they sell consumers.

**Personal Injuries** – Injuries can make life very difficult. The greater the injury, the greater the challenges a person faces. Victims of serious injury experience a great deal of pain and financial setbacks due to medical costs and lost time at work. Sadly, many injuries that people suffer are due to the negligence of another person, meaning that their suffering is someone else's fault (e.g. dog bites, slip & falls).

**Prescription Drug Injuries** – Medication-related injuries often have terrible consequences for a patient. Medication errors can occur at any point in the supply process, from the manufacture of a drug to the filling of a prescription.

If you or a loved one has suffered a serious injury caused by negligence, the personal injury attorneys at Terry Bryant Accident & Injury Law are on your side. Our experienced team has a proven track record of delivering results to our clients.
